

Flu Vaccination Reminder 2022.

To all competitors competing with us at Bow lake.

We are going to carry on our 6-month Flu vaccination rule for the future events.

We kindly ask you that your horses vaccinations are up to date. Stewards will be checking every passport. The booster injection must be given within 6 months prior to the competition. Anyone arriving without a passport or an up to date vaccination will be asked to leave the show ground.

We thank you all for the support and cooperation we have received from you all. Our liveries are our priority and are all up to date with the 6-month vaccinations and we would appreciate it if you would all comply to the same rule.

Thank you again

The Bow lake team
